## Snow Melting Controls

### Danfoss offers Contactor Panels with GFEP

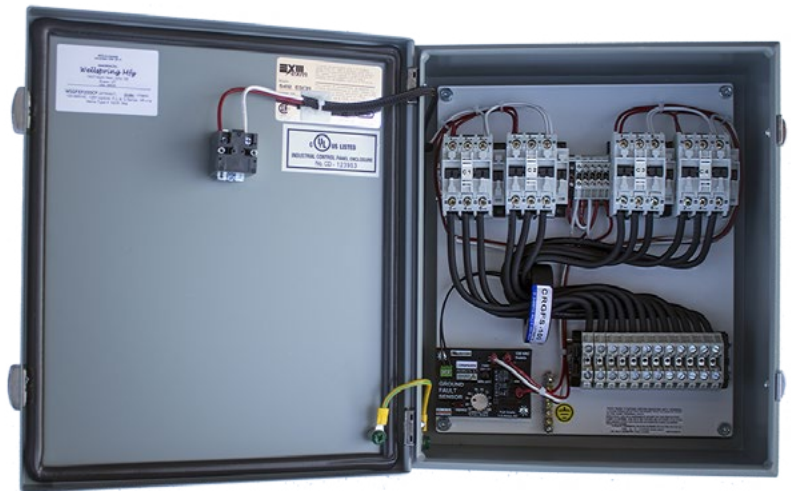

Designed for radiant snow and ice melting applications, the Danfoss contactor panel with GFEP (Ground Fault Equipment Protection) simplifies your installation and minimizes costs. The Danfoss UL listed panels feature a NEMA 1 enclosure, terminal connection block, two or four 3-pole contactors, and wiring diagram.

The panel should be used in conjunction with an in-ground snow sensor/controller or the aerial-mount snow switch.

*NEMA 4/4X contactor panel available upon request.*

#### Features and Benefits

- NEMA 1, UL listed panel box
- Low cost
- Easy to install
- Integrated 30mA GFEP (optional)
- LED trip indicator (internal)
- LED "heat on" indicator light
- Pre-wired terminal connections
- 120 V on/off remote heat indicator
- 2-year warranty

*Control panel with GFEP.*
